

MAC3

E-FLY Float Switch

The Mac3 E-Fly is a dual purpose float switch designed for use in both clean and dirty water. The shape of E-Fly allows the float switch to pass through water with heavy solids, like sewage or liquid animal feed to maintain correct function.

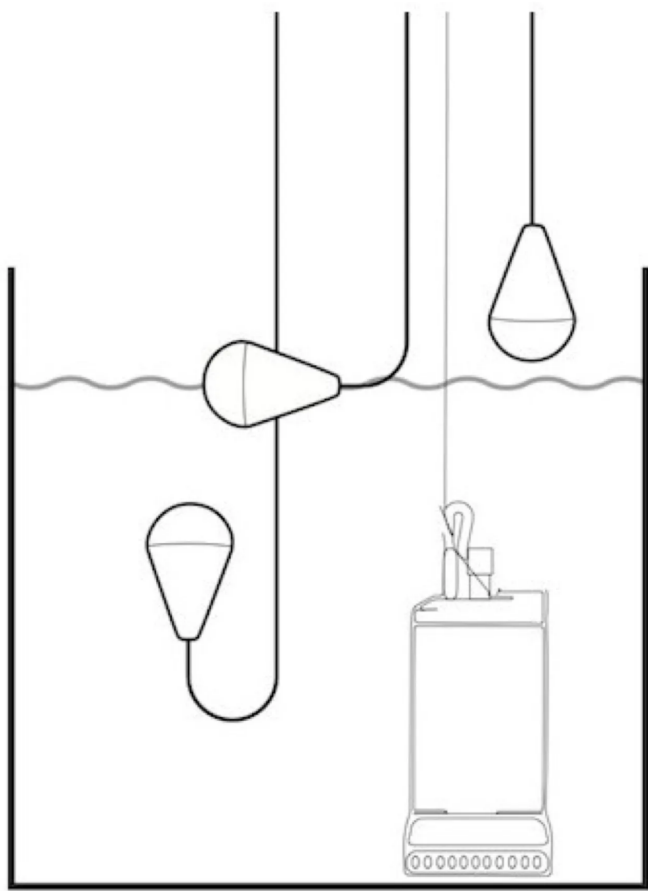

The E-Fly Float Switch features an integrated counterweight allowing the float switch to behave reliably in turbulent water and suspended solids.

Features

- ✓ For use in both clean and dirty water
- ✓ Suitable for small storage tanks
- ✓ Durable polypropylene construction
- ✓ Available with 10m or 20m cable lengths
- ✓ IP68 rated

Technical Data

Microswitch Type	10(3)A 250 V~
Maximum Operating Temperature	+50°C
Storage Temperature	-10°C – +60°C
Dimensions	Ø100 mm , H156 mm
Weight	700g
Operating angle	±10°
IP Rating	IP68
Maximum Depth	2 bar
Body Material	Non-Toxic Polypropylene
